**The only completely  
right solution when  
extremely stringent  
standards have to  
be met – whenever  
enormous grinding  
capacity is required**

grinding with passion

# COFFEE GRINDERS

## 1203/1403

The 1203 and 1403 models are the ideal solution everywhere that fast, reliable and uniform grinding is required.

Coffee stores with a large volume of business, supermarkets and roasting establishments value these coffee grinders highly for their exceptional performance, sturdy, simple and safe operation.

- Specially developed motors allowing large grinding capacity at all degrees of fineness.
- Preservation of coffee's unique aromatic oils thanks to uniform, gentle and cool grinding made possible by built-in fan and specially sharpened discs developed by ditting.
- Continuously variable adjustment of grinding fineness.
- Minimal coffee particles left in discharge tube thanks to built-in vibrating device or manual tapper.
- Efficient bag shaking device (KR/KFR models) distributes grounds evenly into bag and ensures all particles are dispensed.
- Precision grinding discs made of high-quality material that is extremely wear-resistant. The original discs can be used 2-3 times after re-sharpening.
- Easy to maintain and clean.
- Standard colours: brown, black and ruby-red.

### Technical data 1203

Voltage/frequency	220-230V / 50Hz / 1*
Motor power	1.1kW
Average grinding capacity	1400g/min.**
Hopper capacity	1100g
Grinding discs ø	120mm
Net weight	38kg
Dimensions (WxDxH)	256x244x632mm
CE-Conformity	

### Technical data 1403

Voltage/frequency	220-230V / 380-400V / 50Hz / 3*
Motor power	1.7kW
Average grinding capacity	2200g/min.**
Hopper capacity	1100g
Grinding discs ø	140mm
Net weight	38kg
Dimensions (WxDxH)	256x244x632mm
CE-Conformity
